Community solar, also known as Net Energy Billing (NEB), is designed to promote the expansion of solar production in Maine. Eligible solar projects receive credit for each kWh of electricity they generate. ... You will receive a second bill from the solar company for the credits generated for you that month, usually 45-60 days after that month ...

Solar electricity is a clean and renewable resource that can provide a variety of benefits to the electrical grid. Solar installed behind-the-meter, such as on a homeowner's rooftop, lowers load on the distribution system and can offset the building's energy bill, while larger utility-scale solar farms provide clean power to the grid throughout the course of the day.
