Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Does Myanmar utilize solar energy?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system, which weakens the energy potential from this source.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmar to address this issue.

Does Myanmar support e-commerce?

First of all, the Government of Myanmar is supporting e-commerce. The government created a digital trade and e-commerce development sub-committee (DTECD). The Deputy Minister of Commerce heads the committee. The DTECD's purpose is to enable the private and public sectors to work together to encourage small businesses and enterprises to digitalize.
