

Solar energy business Belize

Established 2000 in Belize, Go Green Ltd. works with companies around the world to provide Central America and the Caribbean with the most efficient solar energy solutions in renewable energy, such as solar and photovoltaic. As an EPC, we provide projects from start to finish; we design, supervise, and teach local companies to maintain such systems.

Belize's solar energy is currently limited to off-grid use, primarily by residential consumers, hotels, and resorts located in remote areas of the countries. The Government of Belize intends to encourage investment in utility solar-energy facilities, however, has not yet publicly announced a request for proposals.
