

Solar energy landing page Puerto Rico

What is the Puerto Rico solar access program?

The Solar Access Program is funded by the U.S. Department of Energy's Puerto Rico Energy Resilience Fund. For far too long, Puerto Ricans have lived with an unreliable and expensive electric system.

What is the Puerto Rico energy Resilience Fund?

This program, funded through the Puerto Rico Energy Resilience Fund, will provide solar panels and battery storage systems to low-income households in Puerto Rico with zero upfront costs, as well as education and support on how to use and maintain the systems.

Does Puerto Rico have a solar incentive program?

The Program will serve families that are not Low to Moderate Income (LMI). Programs closed to new applications. The Puerto Rico Department of Housing (PRDOH) has designed the Solar Incentive Program.

Does Puerto Rico have a photovoltaic system?

When the day is cloudy, during the night and when it rains, the photovoltaic system produces no or very little current. The appliances do not tolerate this variability in the current, so these deficits must be supplemented with current from the Puerto Rico electrical system, or using energy stored in batteries.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

The Solar Access Program, funded through the U.S. Department of Energy's Puerto Rico Energy Resilience Fund (PR-ERF), aims to deploy solar and battery storage systems to up to 30,000 vulnerable households in Puerto Rico at no ...
