

How do Faber solar-frames work?

On site, the Faber Solar-Frames are unloaded directly with a forklift or crane, placed on existing containers and locked at the ISO corners. In the Pro version, the built-in twist locks are used for this purpose. With the Light version, you can use your tried and tested container clips. Attaching. Locking. Connecting. Solar power during the day.

How many Faber solar-frames can be transported on a semi-trailer vehicle?

Depending on the model, up to 24 frames can be transported on one semi-trailer vehicle, while at the same time the modules remain protected by the intelligent design. On site, the Faber Solar-Frames are unloaded directly with a forklift or crane, placed on existing containers and locked at the ISO corners.

What is a solarfold container?

The solarfold Container is an immaculately-detailed and sophisticated plug & play system for a wide range of applications. The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What makes a mobile solar container a 'off-grid' solution?

With self-sufficient 'Off-Grid' solutions the optional SIM card gives you complete control - independence, mobility and flexibility. The mobile solar container contains 200 PV modules with a maximum nominal power rating of 134kWp, and can be extended with suitable energy storage systems.

What is a solarfold mobile drive system?

The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants. On request, the mobile Solar Container can be supplied with the necessary accessories for complete independence. pay-back. Solarfold is far more than just a pioneering means of producing clean electricity.

This capacity is housed on a durable floor frame, mirroring the dimensions of a 20ft HC container, and incorporates an advanced PV rail system alongside a folding mechanism. These features ensure the system retains the ...
