Solar market outlook in Martinique The people of Martinique rely on electricity for several daily activities. A huge chunk of the Island's power supply stems from fossil fuels. However, recent developments paint a picture of hope for its solar market. Martinique boasts of a fleet of solar power plants that supply clean energy to its grid. The most recent statistics show that the ...

In the long run, the price of a solar roof is even cheaper than a regular roof because my roof generates electricity over time. My first experiences this summer are great: my solar roof created so much energy, that 20% we used ourselves in the household, but 80% sold back to the grid.
