What is the Solar Energy Association of Ukraine?

The Solar Energy Association of Ukraine fosters the development of solar energy in Ukraine by uniting the solar market, facilitating the exchange of experiences, and consolidating the efforts, ideas, and interests of all participants within the solar community.

Could Ukraine become the largest producer of solar energy in Europe?

Ukraine has vast territories suitable for the installation of solar power plants and favourable climatic conditions. The country could become one of the largest producers of solar energy in Europe. The European Commission has conducted a study of the needs for grid development and renewable energy in Central and South-Eastern Europe.

Why should you invest in solar energy in Ukraine?

Ukraine actively embraces digital technologies in the field of solar energy, ensuring effective and automated system operations. Ukrainians are not afraid of working beyond the norm and thus operate at a rapid pace.

Who are the members of Solar Energy Association?

The association comprises more than 45 members, including Ukrainian and international companies involved in various aspects of solar energy, such as distribution, manufacturing, installation, legal support, and large-scale industrial solar power plants.
