What is Mirai solar?

Mirai Solar is disrupting the global greenhouse market by replacing existing shade cloths with foldable, retractable, transparent solar modules. Our customizable, lightweight technology can also be applied to a variety of building integrated solar projects. Mirai Solar is re-inventing shade into the energy of the future.

Does Mirai solar need shade?

At Mirai Solar, we believe that any need for shade should be taken as an opportunity to harness the energy of Sunlight. The Mirai Screen is a photovoltaic solar screen with variable shading and output power. A fraction of the light is absorbed in the module, generating electricity, while the remaining light is transmitted.

How many solar panels will Madre Vieja have?

Madre Vieja will consist of 68,220 solar panels and be able to generate 48.68 GWh of electricity per year, enough to offset over 12,574 tonnes of carbon dioxide (CO<sub>2</sub>) emissions annually.

When is Enel launching a solar park in Panama?

Author: 100% Campaign. Italy's Enel SpA (BIT:ENEL) has commenced construction of a 30.88-MW solar park in Panama's province of Chiriqui. The company said on Tuesday that the Madre Vieja photovoltaic (PV) plant is expected to commence feeding power into the local grid in December 2021 while commercial operation is set for February 2022.
