The temporal variation of the movement of the sun in the sky over Syria during a day is considered by computing the tilt angle. ... This article analyzes the optimal choice of the tilt angle for the solar panel in order to collect the maximum solar irradiation. In this paper, the collector surface is assumed to be facing toward equator.

After a significant needs assessment and research phase, the first pilot project began construction inside Syria in December 2016. 480 solar panels were installed saving 7,000 litres of diesel a month at the hospital and allowing the ICU, operating rooms and emergency departments to operate without diesel generators.

Illegally re-badged panels were sold on to Senegal, Burkina Faso, Nigeria, Morocco, Mauritania, Turkey and even Syria. Italian authorities found 60 tons of panels which will be examined. February ...

Goldi Solar is India's most quality-conscious solar brand. The company manufactures high-end photovoltaic modules, provides EPC services, and is an independent power producer (IPP).
