for your project. See the top reviewed local solar panel installation companies in La Guadeloupe, France on Houzz.

**How Solar Panels Work.** Solar panels work by converting sunlight into electricity through photovoltaic cells. These cells are made of semiconductor materials like silicon, which absorb photons from sunlight. When sunlight hits the cells, it knocks electrons loose from their atoms, creating an electric current.

The government encourages new detached houses to install solar panels, and subsidies greatly help reduce the costs of installing solar panels. Based on varies information, a solar panel price in Japan ranges from 200,000 to 400,000 yen per kilowatt (kW).
