Where can I buy solar power in Tanzania?

Various companies are active in the solar power business in Tanzania, serving all different market segments. In fact, these companies selling solar products range from importers to wholesalers, retailers and local solar shops. Most are centred around larger cities, particularly Dar es Salaam, Mwanza and Arusha.

Is solar energy a good investment in Tanzania?

Investments in solar energy in Tanzania are currently at a small scale, with about 6 MW of Photovoltaic (PV) solar energy installed. The Government supports solar development within the country by removing VAT and import taxes on the main solar components such as panels, batteries, inverters and regulators.

How will solar energy be used in Tanzania?

The funds will be used to construct a solar energy plant and an evacuation transmission line in Tanzania, as well as to add 4,250 rural electrification connections, providing reliable renewable energy to households, schools, clinics, and small and medium-sized enterprises in the Kigoma Region. Solar energy investments in Tanzania are still at a small scale.
