Solar systems sa Ireland

Additionally, solar panel systems have a lifespan of around 25 years, providing long-term electricity generation. With an average cost of EUR6000 to EUR17000 for a residential solar PV system in Ireland, installing solar panels can be a worthwhile investment that pays back over time through savings on your electricity bills.

What is a solar mounting system? Also known as a solar racking system, solar mounting systems are used to securely fasten solar PV panels to a roof structure. The system is designed to be easily retrofitted to existing houses. Most solar PV systems installed in Ireland are mounted directly onto the roof frame, above the roof tiles or slates.

The size of your system determines the grant amount you are eligible for. Your system's performance is measured in kWp (kilowatt-peak) and this amount is used to calculate your grant allowance. So you can expect to get: EUR800 for 1kWp. EUR1,600 for 2kWp. EUR1,850 for 2kWp. EUR2,100 for 4kWp. The grant covers materials and labour.
