Who makes Solar Turbines?

Powering the future through innovative,sustainable energy solutions. Solar Turbines Incorporated,headquartered in San Diego,California,is a wholly owned subsidiary of Caterpillar Inc.Solar manufactures the world's most widely used family of mid-sized industrial gas turbines,ranging from 1 to 39 megawatts.

When did Solar Turbines start?

Solar Turbines started as an aircraft company in 1927. The company grew through several wars and the Great Depression. Solar's growth led the company to develop a wide range of innovative products.

How many Solar Turbines are there?

Solar Turbine Incorporated's product line currently consists of the Saturn,Centaur,Mercury,Taurus,Mars and Titan turbines,and a variety of attachments that are sold with them. To date,Solar has sold more than 15,000gas turbine systems,with a combined operating history of over 2 billion hours of use,equivalent to over 100,000 years.

How much does a solar project cost in Pohnpei?

After just 15 years,the entire project,capitalized at over \$20 million,will transfer,without cost,to the State of Pohnpei,providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.

How much power does a solar turbine have?

The latest model,the Titan 250,delivers 30,000 horsepower(22,000 kW). Solar Turbines Incorporated has also been involved in a number of projects to improve the fuel economy of industrial turbines of all sorts. In 1992,Solar Turbines introduced the SoLoNOx system.

Can Solar Turbines improve fuel economy?

Solar Turbines Incorporated has also been involved in a number of projects to improve the fuel economy of industrial turbines of all sorts. In 1992, Solar Turbines introduced the SoLoNOx system. The SoLoNOx system uses lean-burn technologies to reduce NOx emissions.

À PROPOS DE SOLAR. Fondé en 1927, Solar Turbines est un leader en solutions d"énergie et en fabrication avancée. Aujourd'hui, Solar est un fournisseur de premier plan de moteurs pour turbines à gaz industrielles, de compresseurs et d'ensembles d'entraînement mécaniques et est un acteur clé dans le segment de puissance 1 590 à 31 900 (hp) du marché mondial des ...
