

Solar turbines sagl Portugal

Who is Solar Turbines?

Solar Turbines is a leading manufacturer of mid-range industrial gas turbines (3.5 to 21.7 MW). More than 15,000 Solar units are operating in 100 countries around the world.

Are Solar Turbines ready for the gases of the future?

In this regard, Solar Turbines' gas turbines, including those for the tissue sector (Titan 130, Taurus 60, T70), are as of now ready for the gases of the future: 48 of our installed machines operate in environments with a high hydrogen or CO content, and 111 work with biogas and syngas.

Who is Solar Turbines (Caterpillar group)?

Solar Turbines (Caterpillar Group) is one of the world's leading suppliers of energy solutions in the industrial sector. With a machinery fleet of more than 16,000 units and customers distributed globally, it operates in various sectors, ranging from food & beverage, ceramics and oil & gas, through to pulp & paper.

How many Solar Turbines have been installed in the pulp & paper industry?

Solar Turbines installed more than 1.6 GWe in the Pulp & Paper industry worldwide which correspond to more than 150 installations. In particular we have been providing gas turbines packages for integrated cogeneration plants in the tissue industry on six continents.

How does Solar Turbines follow its customers?

In the end, once the system has been set up, Solar Turbines follows its customers by means of an internal program called Value co-generation (from the term co-creation). More than a traditional customer service, through this service the company teams up with the customer with a view to improving its applications as needed.

How do Solar Turbines contribute to achieving environmental objectives?

In addition to maximising performance, Solar Turbines' technologies also play an important role in terms of achieving environmental objectives. As Mr Masiero explains, they contribute to achieving the 3 "Ds": Decarbonisation, Digitalisation and Decentralisation.

Solar focuses on innovative solutions to reduce emissions and continues to work towards a carbon neutral future. Mobile Power A complete mobile power plant for short-term power ...

Zur Solar Turbines Switzerland Sagl konnten wir das Zahlungsverhalten zu insgesamt 245 Rechnungen auswerten. Bonitätsverfahren; Betriebsauszug: Es liegt uns noch kein Betriebsauszug vor. Sie möchten wissen, ob zur Firma Solar Turbines Switzerland Sagl Betreibungen am Register verzeichnet sind? Gerne holen wir für Sie beim zuständigen ...

Solar's gas turbines then generate renewable electricity and heat. Solar has numerous landfill and digester references around the world. Read how Solar is helping Ethanol plant managers to increase efficiency, drive revenue, lower ...

There's used equipment, and then there's Solar Turbines authorized pre-owned equipment -- selected, inspected and serviced to a higher standard. As the original equipment manufacturer of our turbomachinery, our experts evaluate ...

Solar's C51D centrifugal gas compressors work in all single-body and tandem midstream and upstream oil and gas applications using our gas turbines or electric motor drives. They are used with the Taurus 60, Taurus 70, Mars 90, Mars 100, Titan 130, and Titan 250 gas turbines.

Using Solar's SoLoNOx (TM) technology, customers are able to maintain a cleaner environment to reduce emissions. SoLoNOx (TM) is an option for natural gas fueled gas turbines rated at 3.5 MW and larger, including the Centaur ®, Taurus (TM), ...

Solar's C41D centrifugal gas compressors work in all single-body and tandem midstream and upstream oil and gas applications using our gas turbines or electric motor drives. They are used with the Centaur 40, Centaur 50, Taurus 60, Taurus ...

The Titan (TM) 350 is a world class highly efficient gas turbine designed for the power generation market in the 38 MW range. This product has robust design features based on the proud legacy of the Titan product line and is well suited for flexible power or continuous duty.

Solar Turbines Incorporated, headquartered in San Diego, California, is a wholly owned subsidiary of Caterpillar Inc. Solar manufactures the world's most widely used family of mid-sized industrial gas turbines, ranging from 1 to 39 megawatts. More than 16,000 Solar units are installed in more than 100 countries with more than 3 billion ...

Headquartered in beautiful San Diego, California, Solar has offices conveniently located worldwide. Click below to find an office near you. Solar Office Locator. Solar Turbines Incorporated.
