Where are Solmax products made?

Solmax has an extended manufacturing presence in North America, Europe, Asia, and the Middle East, allowing for better access to raw materials and the industry clout to help raise standards and drive innovation.

Is solmax global based out of Pakistan?

The Solmax Global website domain ("solmaxglobal.com") was privately registered on October 4th, 2017. At the time of publication Alexa cites Pakistan as the primary source of traffic to the Solmax Global website (49%). This suggests that whoever is running Solmax Global is likely based out of Pakistan.

Who accredits solmax?

Our laboratories are accredited by the Geosynthetic Accreditation Institute - Lab Accreditation Program (GAI-LAP), assuring our customers that we apply the highest standards in product testing. Solmax has also achieved BAM, Asqual, KIWA, CE, and other certifications.

What makes Solmax an excellent company?

Solmax's innovative and trustworthy culture, established and cared for by Mr. Jacques Côté, the company's founder and current Executive Chairman of the Board, has contributed significantly to its growth.

I can't see any way this could be legit. As is customary of scam business ventures, the website is as vague as possible. Just a lot of empty "business-ese" intended to make anyone who's actually interested feel like they too can be real businessmen if they're brave enough to take a chance.

Our journey begins in Canada, with Solmax established as a trusted geosynthetics distributor. 1981. We shift from distributor to manufacturer, by opening our first manufacturing facility in Canada. 1997. We experience accelerated growth, opening a new production plant in Malaysia.

For more than 40 years, Solmax develops, provides in Europe, the Middle East, Africa and the CIS materials a whole portfolio of geosynthetics that enhance world's infrastructure, protect the environment & conserve natural resources.
