

# South island solar Niue

Will Niue build a solar farm?

Niue is seeking about US\$18 million to build a solar farm as part of the island nation's plans to reduce its heavy reliance on fossil fuels. The minister for infrastructure, Dalton Tagelagi says Niue's strategic energy road map sets the ambitious goal of having 80 percent of its power generation coming from renewable energy sources by 2025.

Does Niue use solar energy?

Over the last 5 months the total integrated system has resulted in 28.6% of Niue's electricity coming from solar renewable sources, saving over 130,000 litres of diesel. Find out more about Vector Powersmart

How did the Niue solar project work?

Working on the existing solar plants to establish communication with the Niue Central Power Station. Installing 600kW of solar to increase the islands overall solar capacity to 1.1MW of solar generation. The solar array was installed well inland on high ground to avoid any potential damage from cyclones in the future.

The South Pacific island of Niue says it was cheated out of .nu, a domain that turned out to be very lucrative on the other side of the world. It turned out that .nu was, in fact, very valuable. "Nu"...

Unlike many South Pacific islands, Niue doesn't have the long stretches of pristine beaches you might come to expect. Although there are a number of small unspoiled beaches dotted around the island, Niue more than makes up for this with its secluded natural pools, breathtaking cliffs, and a wonderfully laid-back atmosphere. Your Private Paradise

Niue has a literacy rate of 98%, one of the highest among Pacific Island countries. There is free compulsory education on the island from 3 to 16 years of age. After elementary school, there is a seven-year high school system. So, we decided to drop by Niue High School, the island's only high school. It's a row of single-story school buildings.
