What is El Salvador's energy sector like?

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisi3n Hidroelctrica del R3o Lempa), the rest of the generation capacity is in private hands.

How much electricity does El Salvador produce a year?

Gross electricity generation in 2006 was 5,195 GWh, of which 40% came from traditional thermal sources, 38% from hydroelectricity, 20% from geothermal sources, and 2% from biomass. In 2006, total electricity sold in El Salvador was 4,794 GWh, which corresponds to 702kWh annual per capita consumption.

How many generation companies are there in El Salvador?

In 2006, there were 11 generation companies in El Salvador, with 18 out of 22 generation plants in private hands and 97% of hydroelectric capacity owned by the public company CEL (Comisi3n Hidroelctrica del R3o Lempa).

How many hydroelectric plants are there in El Salvador?

The public company CEL (Comisi3n Hidroelctrica del R3o Lempa) owns and operates 97% of the capacity. The four hydroelectric plants in El Salvador are: 5 de Noviembre (81.4 MW), Guajoyo (15MW), Cerr3n Grande (135 MW), and 15 de Septiembre (156.3 MW), all of them on the Lempa River.

Why is nuclear energy important in El Salvador?

Alvarezc explained that research reactors, unlike larger nuclear power plants, are primarily used for producing neutrons for research, development, education, and training. Nuclear energy is being recognized as an economical and stable option to guarantee access to clean and safe energy, positioning El Salvador for a sustainable energy future.

How many transmission companies are there in El Salvador?

In El Salvador, one government-owned company, Etesal (Empresa Transmisora de El Salvador), which was constituted in 1999 after the restructuring of CEL (Comisi3n Ejecutiva Hidroelctrica del R3o Lempa), is responsible for the maintenance and expansion of the transmission system. In El Salvador, there are five distribution companies.
