Most people already know the basic facts about the sun. It's a star. It's massive. And it is considered the center of the solar system galaxy. However, the sun is much more than just the gravitational center of our galaxy. In truth, it is the center of life for our world. Every living thing on Earth is in some way sustained by the energy given off by the sun.

Illustrated by Chad Wallace ISBN: 978-0-06-445177-2 HarperCollins 32 pages Grades 1-4. Synopsis. ... Sun. Students then draw conclusions about how the color of an object (either black or white) absorbs or reflects the Sun's energy. Finally, students are asked to apply their understanding of Sun versus shade and the color of objects and ...
