Does Mauritania have solar?

TOUJOUNINE - Solar Averaging seven days of rain a year, Mauritania's climate is ideal for solar and the country's first major development in the sector did not disappoint in this regard with 54,000 panels supporting 50 MW production capacity at Toujounine, on the northern outskirts of the nation's capital.

How many solar panels does Mauritania produce a year?

The facility is responsible for 10% of Mauritania's grid capacity. It generates 25,409 megawatt-hours of renewable electricity per year and displaces approximately 21,225 tons of CO<sub>2</sub>. The plant's almost 30,000 solar panels, manufactured by Masdar PV, provide electricity to more than 10,000 houses in Nouakchott.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Is Mauritania leading West Africa's green energy transition?

As Mauritania leads in west Africa's green energy transition, significant investment is being made in hydrogen, solar and wind energy developments.

Who owns Mauritania's electricity plant?

Completed in 2017, the \$53 million plant is run by the national electricity company, Sociéte Mauritanienne d'Electricité (Somelec), and has seen ongoing works since its inauguration by (then) President Mohamed Ould Abdel Aziz, removing an estimated 57,000 tonnes of CO<sub>2</sub> per annum and supplying 10% of Mauritania's net energy production.

Is Mauritania a sustainable country?

Mauritania is making great strides in the realm of renewable energy. Their commitment to a sustainable future is evident in their increasing use of natural resources to generate electricity. In 2008, a mere 1% of electricity came from renewable sources, but by 2020, that number had grown to an impressive 37%.
