Surya Shakti. On this Spot, Sadhguru writes about the impact of the Sun on the Northern Hemisphere at this time of the year, and how the energy of the Sun can fuel our wellbeing and consciousness. He says, "Any life form - from plants to animals to humans - can fully flourish only if it is in sync with nature."

Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product. It effectively measures how efficiently a country uses energy to produce a given amount of economic output. A lower energy intensity means it needs less energy per unit of GDP.

Construction will start at the 25MWp Bangui Solar PV plant, which includes 25MWh of battery storage, in April, and commercial operations are expected in June 2022, the World Bank Group (WBG)'s Boris Ngougouni told African Energy.
