

Who owns Curaçao refinery?

Although Curaçao now owned the refinery, it lacked the skilled personnel to maintain it and inherited responsibility for the facility's environmental problems. The solution was Venezuela's state-owned oil company, PDVSA, which was contracted to be the facility operator with a 35-year lease.

How can synenergy help ensure business sustainability post-implementation?

Development of in-house capability to ensure business sustainability post-implementation. The workplace is a complex jigsaw puzzle waiting to be revealed, and we at Synenergy help make sense of the apparent disorder. It requires all of our experience, creativity and knowledge as no two challenges are the same.

Will Curaçao reopen its Isla refinery with Oryx Petroleum?

Source: Luis Acosta/AFP/Getty Images. In October 2023, Curaçao, an autonomous country under the Netherlands constitution with a population of 152,000 people, signed a Memorandum of Understanding (MOU) to potentially reopen its long-idle Isla refinery with Oryx Petroleum, which is partially owned by the sovereign wealth fund of Qatar.

Why did Royal Dutch Shell sell its refinery to Curaçao?

In 1985, Royal Dutch Shell sold the refinery to the government of Curaçao for a symbolic single dollar. Although Curaçao now owned the refinery, it lacked the skilled personnel to maintain it and inherited responsibility for the facility's environmental problems.

Why is Curaçao important?

Curaçao's emergence as part of the greater Venezuelan oil complex put the island on the geopolitical map, which became evident in World War Two; when the Netherlands was overrun by Nazi Germany in 1940, Royal Dutch Shell moved its headquarters to Curaçao and demand for aviation fuel skyrocketed, benefitting the island.

Does Curaçao have a shared constitutional system?

This raises concerns for the Kingdom of the Netherlands, under which Curaçao operates in a shared constitutional system. Under this system, Curaçao has considerable autonomy, but ultimately foreign affairs are left to the Netherlands.

The last two winters in the Northern Hemisphere were exceptionally mild, keeping global natural gas markets well supplied and balanced at relatively low prices. Prices going into this winter are only slightly higher than last year at the same time based on current forward natural gas and liquefied natural gas (LNG) prices in Europe and Asia.
