When will Jiangsu Tafel power battery project start?

SMM: it is reported that the second and third phase of the power battery project of Jiangsu Tafel New Energy Technology Co.,Ltd. started on May 17,2020. the project is located in Nanjing Jiangning Development Zone,with a total investment of about 3 billion.

Is Tafel a good battery company?

Yes,with very good market prospects. According to Battery China.com,Tafel currently produces square aluminum-shell lithium-ion power batteries and energy storage batteries,covering both lithium iron phosphate and ternary materials. The products are widely used in electric vehicles and energy storage projects.

When will Tafel Nanjing power lithium ion square aluminum shell battery production base be completed?

GWh,Phase II and Phase III projects are scheduled to be completed by the end of 2019. At that time,Tafel Nanjing Power Lithium Ion Square Aluminum Shell Battery R&D and Production Base will achieve an annual production capacity of 6GWh and annual sales of RMB 6 billion.

What is the production capacity of Tafel project in Changde?

It is reported that Tafel's first phase of the project in Changde has an annual production capacity of 1.5GWhand an annual output value of 1.5 billion yuan. It is planned to be put into operation in 2019.

Who is Jiangsu Tafel?

Jiangsu Tafel New Energy Technology Inc. is an innovative high technology companythat was established in 2014 and is engaged in research &development,manufacturing and sales of lithium-ion power batteries and energy storage batteries. The company is headquartered in Nanjing,and its facilities are also located there.

Tafel plot for an anodic process (). The Tafel equation is an equation in electrochemical kinetics relating the rate of an electrochemical reaction to the overpotential. [1] The Tafel equation was first deduced experimentally and was later shown to have a theoretical justification. The equation is named after Swiss chemist Julius Tafel.. It describes how the electrical current through an ...
