You can get Energy Activator Blueprints by opening odd-numbered patterns in Void Intercepts, with the drop chance ranging from 3 to 10% based on the Amorphous Material's rarity.. Our Energy ...

It is like Warframe. When you cap out, and use a Forma, or in this game, a Crystalization Catalyst, you will reset your character to 1, but you get to inscribe a rune, which allows for you to essentially get higher level mods slotted due to halving your mod cost on anything that matches the rune slot.

Kind of curious what's everyone's go-to weapon to use energy activator on. I know thundercage is very popular choice, but what about nezeistra or gregs? Enduring legacy also came to light for me recently, seem like a good candidate. < > Showing 1-10 of 10 comments . JayboX Aug 31 @ 10:39pm ...

Energy Activator is a power-up item for your weapons and Descendants which can be obtained by completing certain tasks or missions. While you are in the hub world, keep an eye out for a helpful kit. This kit allows you to combine different types of runes and can also grant you Energy Activators.

Energy Activator is a power-up item for your weapons and Descendants which can be obtained by completing certain tasks or missions. While you are in the hub world, keep an eye out for a helpful kit. This kit allows ...

Energy Activator Blueprints have a 6% chance but you can also get stabilizers from the outpost rarely to make that 10%. The catch here is you should travel back and forth to a spawn point to ...

The Energy Activator Blueprint in The First Descendant (TFD) is a crucial component for crafting Energy Activators. These blueprints are notoriously difficult to farm due to their low drop rate, making it a time-consuming process for players.

The "Energy Activator Blueprint" has a consistent drop rate for me, occurring every three days. Despite a mere 3% chance of obtaining it, I've noticed this pattern after opening around 20-30 Amorphous Materials during those periods. This consistency makes me believe the system might be rigged. How can such an essential resource be treated this way?
