

Thailand bigblue solar

Does BigBlue offer photovoltaics?

Over the years, thanks to the growing public interest and innovative technology, BigBlue has launched internationally recognized photovoltaics in addition to solar panels, not to mention a diverse range of highly targeted consumer and professionally installed energy storage systems.

What do you know about BigBlue?

More than you wanted to know about the 'blue'. Among the world's famous renewable energy solution providers since 2007 - Explore BigBlue's most reliable and high-performance energy storage systems, portable power stations, solar panels, and solar chargers for your home grid & off-grid lifestyle.

Who is Bangkok solar power?

1. Bangkok Solar Power Co.Ltd Founded in 2007 as a subsidiary of Bangkok Cable Group, BSP has been developing its activities for providing the Engineering, Procurement, and Construction (EPC) solutions in relation to Photovoltaic (PV) Power Systems for domestic and international markets.

Why should you choose BigBlue ETFE solar panels?

Crafted for the modern explorer, BigBlue ETFE solar panels embody durability and efficiency, standing up to the challenges of the road, sea, or wilderness. High-strength Japan-produced ETFE layer that is corrosion and stain-resistant but retains its clarity with an energy conversion up to 23%.

Why does Thailand have a high energy consumption?

It is mainly due to the country's long-term high economic dependence on fossil fuels, which account for about 76% of energy consumption. However, in the past year, Thailand has made significant progress in energy diversification, and the proportion of renewable energy (such as solar power in Thailand) has gradually increased.

Why is Thailand a good place to get solar power?

Thailand is located near the equator, with long sunshine hours and abundant solar power in Thailand. According to statistics, the central plains of Thailand have higher sunshine hours, reaching an average of 7-8 hours a day. This provides good conditions for photovoltaic power generation.

Einer der weltweit bekanntesten Anbieter von Lösungen für erneuerbare Energien seit 2007 - Explore BigBlue Die zuverlässigsten und leistungsstärksten Energiespeichersysteme, tragbaren Kraftwerke, Solarpaneele und Solarladegeräte für Ihren Heim- und Off-Grid-Lebensstil.

Blue Solar Roof. Our own projects . Location: Nonthaburi and Pathum Thani, Thailand Owns 66 residential solar rooftop systems and sell electricity to Metropolitan Electricity Authority (36 houses) and Provincial Electricity Authority (30 houses) Total Installation capacity : 0.46 MW.
