

The Gambia rechargeable power supply for home

Can I use power plugs in Gambia?

Select your country of residence, to check the compatibility of your power plugs in Gambia. In Gambia, power plugs and sockets (outlets) of type G are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

What voltage does Gambia have?

The voltage in Gambia is the same as in Europe. However, most Europeans will need a travel adapter when traveling to Gambia. What Outlet does Gambia Use? Type G plug sockets have three rectangular pins and a grounding pin. These plugs are typically used with devices that have a voltage of 230V. Is it safe to drink water in Gambia?

Does Gambia require a travel plug adapter?

In Gambia, hotels often have variable electrical sockets such as type 'C' or type 'F'. If your appliance's plug doesn't match the shape of these sockets, you will need a travel plug adapter in order to plug in. They do not convert electricity.

Do North Americans need an adapter in Gambia?

No! North Americans will need an adapter for the outlets and a transformer for the voltage when traveling to Gambia. North American device plugs will not work with the outlet types in Gambia. Also, the voltage in Gambia is different from North American voltages. Can Europeans use Electronics in Gambia without an adapter?

What type of electrical socket is used in the Gambia?

In The Gambia, electrical sockets (outlets) are mostly of the type 'G' British BS-1363, which accept the 3 pin rectangular blade plug composed of 2 parallel flat pins with a ground pin. The next most common type is the European-style 2 pin.

Does Gambia have electricity?

The Gambia is a country in West Africa that is entirely surrounded by Senegal except for its coastline on the Atlantic Ocean at its western end. It is the smallest country in mainland Africa. As of 2016, it is estimated that only just over one-third of Gambians have access to electricity, with a rural electrification rate of 25%.
