The surplus energy can be fed back into the grid, earning you a 20% return on your investment per year based on current electricity costs. 1kW Solar Panel System Price. The typical cost of a 1kW solar system is around \$2,000. However, it's important to note that the prices of solar panels have come down substantially over the past 10 years.

Experts in the power sector in Gujarat claim that though the price of solar power has dropped considerably, the government has continued to pay the 2010 rates to private firms. For instance, in an auction for 500 MW of solar projects conducted by GUVNL in December 2020, Rs 1.99 per unit was the lowest bid.

Energy intensity - shown in the chart above - is one important metric to monitor whether countries are making progress in reducing emissions. The other key part of this equation is carbon intensity: the amount of CO₂ emitted per unit of energy. We can reduce emissions by (1) using less energy; and/or (2) using lower-carbon
