We are serving customers across Japan and around the world through its general industrial machinery and equipment, automobile development testers, and social infrastructure ...

Toyo Denki's power electronics technology is contributing to advances in high-efficiency permanent magnet-type motors and control technology, aiding the market growth of electric and hybrid electric vehicles.

- -1 1918 Technical cooperation with the British firm, Dick, Kerr & Co., and establishment of the company 1920 Our first control equipment and traction motors delivered directly to Keihan Electric Railway Co. in Japan 1921 Completion of domestically produced pantograph, first in Japan 1926 Start of manufacturing of three-phase commutator motor (AS motor) ...

The state-of-the-art generators, originally designed by Toyo Denki Seizo K.K, Japan are manufactured at our ultra-modern plant, Bangalore equipped with best-in-class equipment for ...

TOYO DENKI SEIZO K.K. are working advancingly on the conversion to clean and renewable energy. TOYO Independent Power System is the equipment, to which TOYO's newest technology is concentrated, has been improved to make it possible to compose simply and efficiently the clean generation system utilizing wind power,

June, Toyo Denki Seizo K.K. 100th anni-versary Order received for consigned research and development of supercon-ducting flywheel power storage system for railways 2019 Establishment of SIAM TOYO DENKI Co., Ltd. in Thailand Establishment of Chalco-Toyo Permanent Magnet Motor Co., Ltd. in China In-wheel motor Los Angeles County Metropolitan

Toyo denki power systems Colombia

Toyo Denki has an extensive record of success as a manufacturer of turbine generating equipment, having deployed numerous private generators that remain in operation today.

Toyo Denki System by PT. NGT Trading & Engineering Indonesia is an official agent of Niigata diesel Engine and spare parts and offer a wide range of products and services needed by various industries.

Our power generation systems for everyday and emergency use supply safe and stable electric power. We propose the best possible solutions to our customers, always taking the environment and energy conservation into consideration.

Transportation Systems. Railway transportation provides people with the comfortable and safe mobility they need for modern life. Making the most of the technologies it has been developing for almost a century, Toyo Denki manufactures a wide range of railway electrical equipment, including train propulsion systems (drive systems), auxiliary power ...

Power Generation and Social Infrastructure System Contributing to public services that support people's lives around the world. Electric power is one of the most important aspects of social infrastructure and crucial to daily life. Our power generation systems for everyday and emergency use supply safe and stable electric power.

Establishment of Toyo Denki USA, Inc. Establishment of Hunan Xiangyang Electric Co., Ltd., in China
Development of autonomous synchronizing parallel drive redundant auxiliary power supply (JR East E993 system)
Development of the Water View water supply monitoring system
