systems are constantly coming down. The government is encouraging the use of Solar energy through tax incentives, ...

We break down average solar pricing in Trinidad. The national average cost of solar panels is \$2.66 per watt, but in Trinidad it's 4 per watt cause a 4.9-kW system is needed to cover the energy costs of a typical home in Trinidad, the average price of going solar will be about \$13,564 after claiming the federal solar tax credit of 0.

Solar is OK, but you can't feed the grid solar. Not worth it. Better for people to put it on their own roofs to reduce their own grid consumption. Oil and gas electric production isn't that bad. How else are you going to get petro chemicals? Plastics etc? And the infrastructure already exists. As our energy consumption grows yea add an offshore ...
