The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

Image: Root-Power. Root-Power has begun building a large-scale battery storage project in Essex, the developer's third to enter the construction phase since its launch earlier this year. The 11MW, 2-hour duration (22MWh) battery energy storage system (BESS) asset is located in London Gateway, the deep-water port on the River Thames' North Bank.

The Caribbean Island of St. Lucia is known for its beautiful beaches, lush rainforests, and colorful coral reefs. But for some of the almost 200,000 people that live on the island, another incredible resource is affecting their daily lives -- the nearly 15,000 solar panels that are producing clean, reliable, electricity from the island's first utility-scale solar farm.

The top prizes offered for Power Play are far from being the world jackpot records, but all of them are good for the locals. Typically, the top-winning amount begins at EC\$1,500 and continues to increase incrementally until it reaches EC\$150,000.. Usually, full matches occur every 3-4 months, so the top awards rarely exceed EC\$150,000.
