

Ukraine zorlu energy solutions

What is Zorlu Energy Solutions?

Zorlu Energy Solutions (ZES) is a Zorlu Energy brand founded to implement new generation technologies. Having began its activities in 2018, ZES aims to facilitate the trips of electric vehicle owners in our country, and to speed up the electric vehicle revolution with its intra- and intercity charging stations.

Why should you choose Zorlu Energy Group?

With its high capacity production power, qualified human resources, balanced portfolio, resource diversity and competency in creating innovative solutions, Zorlu Energy Group continues to invest in projects that promote security of supply and sustainability in energy.

How many power stations does Zorlu Energy have?

Zorlu Energy's installed capacity amounts to 739 MW with 7 hydroelectric, 4 geothermal, 3 natural gas and 3 wind power stations inside the country, and to 1086 MW with investments abroad. 87% of the company's domestic power stations' installed capacity, and 64% of its total installed capacity is derived from renewable energy resources.

Why did Zorlu Energy get a certificate?

Implementing exemplary projects in the field of renewable energy, Zorlu Energy's wind energy projects, thanks to their contributions to social and environmental sustainability, were awarded the said certificate, which is the most prestigious one among the standards ranking energy projects carried out in the carbon market.

What does Zorlu Enerji do?

Zorlu Enerji carries out demand and price forecasts, production planning, pricing, sales, risk and portfolio management, and concurrence and invoicing operations within the scope of its core activities of electricity trading.

Does Zorlu Energy participate in the Carbon Disclosure Project?

The only energy company from Turkey to participate in the Carbon Disclosure Project (CDP), Zorlu Energy took home the "Carbon Disclosure Leadership in Turkey" award, presented within the scope of CDP, in 2011, 2012 and 2014.
