SOLARPAD is a unique and completely new "TANKLESS" solar hot water system. It is also the most compact solar hot water system available. Pipe cold water into the "tankless" collector inlet and let your SOLARPAD do the rest. The process is quick. Free hot water from the sun is created in just a few minutes.

Our key standard for all the solar systems that we provide is that we only use equipment we would be happy to install on our own homes. Your solar PV system consists of three main pieces of equipment; Solar panels; Inverter; Mounting equipment . Solar Panels. Although they may look the same, not all solar PV panels are created equal.
