How much solar energy does the Vatican produce a year?

Thanks to a unique photovoltaic plant installed on the roof of the Vatican Audience Hall, the Papal State has been producing 300 MWh of solar energy every year since its installation in 2008. The project was planned and managed by BayWa r.e. with the PV modules, inverters and its installation donated by solar technology provider, SolarWorld.

Could solar panels be installed on a Vatican property outside Rome?

In it he said solar panels would be installed on a Vatican-owned property outside Rome and the power generated from that could supply all of Vatican City's energy needs. President-elect Donald Trump on Friday nominated Brian Burch, a ring-wing Catholic who has often criticized Pope Francis, as his ambassador to the Holy See.

Is Vatican City the greenest state in the world?

Vatican City may be the smallest sovereign state in the world, but it is also one of the greenest. It has long been an exemplar for tackling climate change through its approach to renewable energy.
