

What type of energy does Venezuela use?

Venezuela relies heavily on domestic production of fossil fuels, with oil and natural gas comprising approximately 90% of the country's total energy supply. Hydro power also plays a key role in electricity generation, accounting for roughly half of installed capacity.

How has Venezuela impacted the energy sector?

Since 2013, Venezuela has been confronting a profound political, social, and economic crisis with a strong negative impact on the country's energy sector. The crisis has severely affected the production of oil, natural gas, fuels, and electricity (Monaldi et al., 2021).

What are the statistics on electricity production in Venezuela?

Since 2009, there have been no official statistics on the electricity and energy sectors. Since the end of the 19th century, the production of electricity has been steadily growing in Venezuela. In between, there were some jolts due to prolonged droughts associated with the El Niño phenomenon.

What is the largest oil company in Venezuela?

The largest oil company is Petróleos de Venezuela (PDVSA). Oil fields in the country include Bolívar Coastal Field, Boscon Field, Maracaibo Basin and Orinoco Belt. Hydro power provided 74% of domestic electricity in 2008. Venezuela produced 87 TWh hydro power in 2008, 2.6% of the world total.

How much natural gas does Venezuela have?

Venezuela has significant natural gas reserves, accounting for 73% of total natural gas reserves in South America and totaling 195 trillion cubic feet (Tcf) as of 2023. The majority of the country's natural gas reserves are associated with crude oil; around 80% of produced natural gas is associated gas produced as a by-product of oil production.

What's going on with Venezuela's offshore natural gas project?

HOUSTON/CARACAS, Dec 8 (Reuters) - Venezuela has begun contacting energy firms involved in a long-idled offshore natural gas project to push them to begin new exploration and operations near its maritime border with Guyana, five people close to the talks said.
