

Does Wallis & Futuna benefit from the energy equalisation scheme?

The remoteness and isolation of the archipelago does not favour the development of the tourism sector. Since July 2016, Wallis and Futuna has benefited from the Energy Equalisation scheme. It establishes a progressive alignment of the local electricity tariff with that of France.

Where are the Wallis and Futuna Islands located?

The Wallis and Futuna Islands, nestled in the South Pacific, are a French overseas collectivity. They are divided into 3 main islands and customary kingdoms: Wallis (Uvea), Futuna (Sigave and Alo). The capital, Mata Utu, is located on Wallis. In 2018, these lands were home to approximately 11 500 people.

What is the cooperation between Wallis and Futuna?

Until 2014, cooperation between Wallis and Futuna and the European Union (EU) focused on opening the Territory by strengthening maritime services and port infrastructure. This cooperation continued during the 2014-2020 programming period with support for the creation and development of the digital sector.

What is the flora of Wallis and Futuna?

The primary flora of Wallis and Futuna includes about 370 indigenous plants. The rate of endemism is about 2%. Wallis and Futuna are an overseas territory with a specific institutional organisation:

What is the difference between Wallis and Futuna?

Wallis is surrounded by islets scattered inside the lagoon and Futuna, which is not near the lagoon, has only one islet that is much larger than those of Wallis. Unlike Wallis that has a low relief (highest point 151 m), Futuna and Alofi are high volcanic islands (highest point 524 m).

What is the climate like in Wallis & Futuna?

Humidity is generally above 82% and annual rainfall exceeds 3,000 mm. There is a cool season from May to September, moderated by trade winds and a hot, rainy season from November to April. The primary flora of Wallis and Futuna includes about 370 indigenous plants. The rate of endemism is about 2%.
