What is Western Sahara resource watch (WSRW)?

Western Sahara Resource Watch (WSRW), an NGO registered in Belgium, has been the most prolific in terms of publications in this area. We first review WSRW's body of work, then move on to look at research by other NGOs, then finally we review non-fiction book chapters and monographs.

How many reports has WSRW produced on occupied Western Sahara?

WSRW has produced four reports on the energy industry in occupied Western Sahara, two on renewables and two on oil and gas. *Totally Wrong* (2013b) focuses on the activities of the Total oil company in occupied Western Sahara.

Is natural resource exploitation a problem in Western Sahara?

As the issue of natural resource exploitation in Western Sahara has been conceptualised in very different ways and from the perspectives of a variety of disciplines, the authors have opted for a semi-systematic review of the work done encompassing academic, non-academic, and activist backgrounds.

Can Sahrawis take advantage of mineral deposits in Western Sahara?

This Earth Sciences paper seeks to help Sahrawis living in exile and the liberated zone of Western Sahara to take advantage of the mineral deposits in their territory. The authors' research develops a low-cost exploration methodology based on inexpensive remote sensing data.

Is the Sahara based on economic resources?

The idea of the economic viability of the SADR being based on its economic resources is also found in Shelley (2004) and echoed by MINURSO and UN Special Envoy to the Sahara, James Baker. Kingsbury (2015) establishes that Western Sahara is illegally and militarily occupied by Morocco.

What role did natural resources play in the Western Sahara conflict?

The majority of research undertaken from a historical perspective on the role of natural resources in the Western Sahara conflict focuses on phosphates. Both Lalutte (1976) and Camprub&#237; (2015) see the potential exploitation of phosphates as the key factor in motivating Morocco to invade Western Sahara.
