

How does myenergi Zappi work?

The myenergi zappi seamlessly connects your electricity supply to your electric car. Once installed, simply plug in your EV and enjoy hassle-free electric car charging from the comfort of your sofa. Simple, eh! With zappi, you'll also benefit from our clever app that allows you to utilise economy tariffs and boost your charging speed.

Does myenergi's Zappi Charger work with other eV Products?

It also works with other MyEnergi products. MyEnergi's Zappi charging point is a smart EV charger for homes and businesses. It's available in four versions, each of which comes in white or black.

Why should you use Zappi?

With zappi, you'll also benefit from our clever app that allows you to utilise economy tariffs and boost your charging speed. If you have solar panels installed, you can even use 100% green energy to charge your EV with renewable power. It's the easy and environmentally friendly way to charge up at home.

Where are Zappi EV chargers made?

Fast charge your electric vehicle at home or workplace using cheaper and greener energy, with the original eco smart zappi EV charger, featuring low cost energy tariff integration and solar charging, all proudly made in Britain. Which is right for me? Which is right for me? Payment options available at checkout. Terms & Conditions apply.

Does Zappi offer a "fast" charge?

Whether you need a "fast" charge to get you going in a hurry or are happy to wait for your charge to take place using 100% renewable energy, Zappi gives you the flexibility to charge on your terms. The eco charge mode is a mixture of both green energy and energy imported from the grid.
