

Zeekr energy storage

What is zeekr power?

Zeekr Power was established in March 2021 as a sub-brand for Zeekr Group's energy business. Backed by Zeekr Group's deep foundation in the automotive sector, Zeekr Power has created the most comprehensive ultra-fast charging ecosystem in the 800V era.

How much energy does a zeekr battery have?

Zeekr's new batteries have a cell-level energy density of 250 watt-hours per kilogram(Wh/kg) and reach 128 Wh/kg at a system level. The company said it can fit more battery cells into a given space, which enables more energy density and requires fewer connection components.

What is zeekr's global fast-charging network strategy?

To build an all-round energy service ecosystem, Zeekr is unveiling its global fast-charging network strategy to deploy thousands of Zeekr-branded charging piles in key international markets, starting from and particularly in Thailand and Australia.

How many zeekr power charging stations are there?

The number of Zeekr Power charging stations exceeds 1,000, and the first Zeekr Power V3 station is officially put into operation. Based on the number of 800V ultra-fast charging piles, Zeekr Power now ranks first among automakers.

Why did zeekr decide to make EV batteries?

CATL's latest Shenxing battery adds 400 km on a 10-minute charge. The decision by Zeekr to make its own EV batteries is one of the clearest examples of the Geely-owned brand's determination to have greater control over its EVs' core technologies, Chief Executive Andy An told a press conference in the eastern city of Quzhou on Thursday.
